SLIM **ART DECO STEEL LOOKING**

ALUMINIUM DOORS

HERITAGE ALITHERM

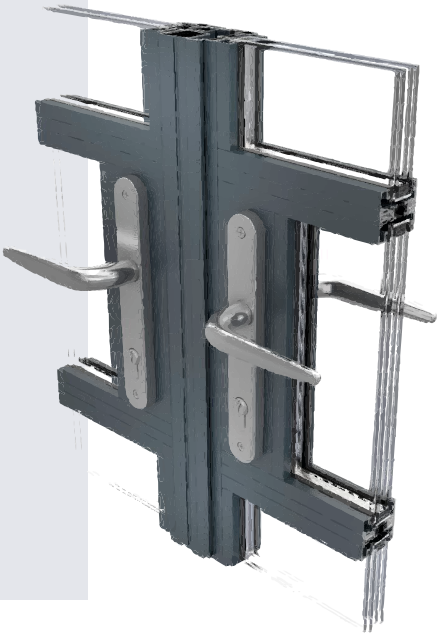
Black 'steel' looking doors are currently all the rage! Alitherm Heritage doors feature super slim sightlines and attractive contours making them the ideal solution for heritage buildings from the mechanisation period as well as modern homes driven by the latest art deco interior design trend!

The doors are a modern take on the Victorian industrial style distinguished by slim midrails and can be matched with internal doors and dividers to complete a look that is distinctive and very chic.

ALUMINIUM THERMAL BREAK

Our aluminium profiles utilise our long-standing extruder's innovative polyamide thermal break technology which creates a barrier between the cold air outside and the warm air inside.

This technology significantly reduces thermal transmittance and enhances the overall u-value of the doors.



SLIM **PROFILE**

- Typical Sightline 59mm
- Frame Depth 47mm
- Horizontal Bar 48mm
- Vertical Bar 25mm
